

第40回 日本神経科学大会 NEUROSCIENCE 2017

The 40th Annual Meeting of the Japan Neuroscience Society

進化する神経科学 Pushing the Frontiers of Neuroscience

2017年7月20日(木)~23日(日) July 20-23, 2017 幕張メッセ Makuhari Messe

Call for Travel Award Application

The 40th Annual Meeting of Japan Neuroscience Society (Neuroscience 2017) will be held at Makuhari Messe in Chiba, Japan, from July 20th to 23rd, 2017.

Neuroscience 2017 offers Travel Awards to enthusiastic leading non-Japanese neuroscientists traveling from abroad to present high quality papers at the meeting. Applications of young principal investigators and senior postdoctoral fellows are especially encouraged. The funding for travel will be between 40,000-150,000 JPY per award depending on the travel distance. The awardees will also be exempt from the registration fee of the meeting. Those from Asian-Pacific countries are particularly encouraged.

Please be advised that persons from the following countries must apply for the Travel Award through their home Neuroscience

Affiliations: China, South Korea, India, and Iran.

- The Japan Neuroscience Society (JNS) was founded in 1974. Since then, the membership has increased steadily. With more than 6,000 members in 2016, JNS is now a representative academic society in neuroscience in Japan.
- Neuroscience 2017 under the theme of “Pushing the Frontiers of Neuroscience” provides a unique opportunity to forge closer links between researchers in different fields and to develop next-generation neuroscientists endowed with a wide perspective.
- Top international and domestic researchers will take this as an opportunity to elucidate the mechanisms of the brain and mind through promotion of a wide range of neuroscience research fields, across clinical medicine and psychology, and to the molecular and cellular biological levels.
- We will also focus our efforts on promoting interaction with relevant professional neuroscience societies in neighboring Asia-Pacific countries, the United States and Europe by organizing joint symposia and providing a financial assistance program to cover travel costs.
- All travel award winners are invited to the International Exchange Meeting for Young Researchers and a get-together party to be held on July 19th, 2017 to facilitate interaction among young researchers from abroad and Japan. In addition, they will be invited to a reception on DAY 2 of the Annual Meeting.
- The Annual Meeting aims at fostering young scientists and promoting collaboration across the globe and various scientific fields including clinical neuroscience. We expect approximately 4,000 participants, including 400 people from overseas.
- The Meeting will be held at Makuhari Messe, Makuhari, Chiba. It is conveniently located from Tokyo and the Narita International Airport, both within a 30-minute distance by car or a 30-minute train ride from Tokyo to Kaihin Makuhari Station by JR Keiyo Line (rapid service). A number of international conferences and exhibitions have been organized at the Messe.

Application deadline: January 16th, 2017.

Masanobu Kano, M.D., Ph.D.
President

The 40th Annual Meeting of the Japan Neuroscience Society
